

Ventilation plugs are used for pressure compensation and moisture protection. This is achieved with the help of an integral membrane. It can be used on control panels, motor frames, enclosures, underground lights, etc.

Technical Details :	
Material	Polyamide 6
Colour	RAL 7035 (Light Grey) RAL 9005 (Black)
Membrane	Hydrophobic copolymer on acrylic base
Temperature Range	-30°C to +80°C Continuous, +150°C Intermittent
Protection Class	IP 68, 5 bar
Air permeability	0.9 Lt/min. at $\Delta p = 1$ bar

Size	Cat. No. Light Grey	Cat. No. Black	Total Height (mm)	
M12 x 1.5	BVPB-11	BVPB-21	14
