

Coding pins are used to prevent false coupling between male & female inserts. To codify more than 6 identical connectors placed besides each other it is necessary to use double code pins.

Double code pins are available in a combination of Male & Female code pins. By using Double code pins a maximum of 16 identical connectors can be codified.

DOUBLE CODE PINS

Application with double code pin for 16 connectors side by side

● - Male Code pin

○ - Female Code pin

M - Male Insert

F - Female Insert

| Cat. No. | Type | Material | | |
|----------|------------------------|-------------------|---|---|
